

MPB CHECK LIST 2

ADOPTING THE MEMBER PROTECTION POLICY AT YOUR CLUB.

The WVCA states in its by laws that when a club or association is affiliated with the WVCA they are required to adopt our rules, by laws and policies see page 70 By Law 20.4 (a) for the exact wording, however it is still necessary for your club to make sure that their constitution, rules or by-laws equally reflect that you accept the rules, by laws and policies of the WVCA and other associations with which you are affiliated (this then includes the MPB).

Following are some examples of the wording that you could use to do this. Your club may debate and rework these suggestions until you have something that suits your club.

Example 1:

The Club accepts, adopts and is compliant with the rules, by laws and policies of the Associations with which it is affiliated.

Example 2:

The Club accepts, adopts and is compliant with the rules, by laws and policies of the Associations with which it is affiliated, when the club is affiliated with several associations the club members are expected to abide by the relevant associations rules, by laws and policies to the competition in which they play

Example 3:

The Club accepts, adopts and is compliant with the rules, by laws and policies of the Associations with which it is affiliated, when the club is affiliated with several associations the club members are expected to abide by the relevant associations rules, by laws and policies to the competition in which they play. The club and all its members are expected to abide by the Member Protection by Law adopted by the WVCA.

	YES	NO
Our clubs constitution has adopted the Member Protection Policy	<input type="checkbox"/>	<input type="checkbox"/>
